Skills Lab #1, #2, and #3

During these 3 skill lab sessions, we will focus on the three levels of analysis and practice response. The three levels of analysis include:

- the interactional style and explicit aspect of the moments;
- the social analysis and
- the transcendent aspects.

Practice sessions will be at the at all three levels including

- the surface observable,
- the deeper structural and
- the deepest transpersonal.

Come to each of these sessions with specific scenarios, situations, challenges, fears, hopes, so that we can deepen into the skillfulness of how to be in adequate and more than adequate responsiveness to what we're encountering in our direct work and in the world.
